

# Speed-Brush (firm)

The towed Speed-Brush uses land drive to rotate the two independent bristle brushes against the direction of travel. The sweeping action works sand & other materials into holes / grass sward making the surface immediately playable. The brushes can be angled to move material inwards.

## Specifications

|                           |                 |
|---------------------------|-----------------|
| SKU                       | 142.140.014     |
| Working width (m)         | 1.4             |
| Working width (inch)      | 55.1            |
| Max. Working speed (km h) | 15              |
| Max. Working speed (mph)  | 9.3             |
| Weight (kg)               | 181             |
| Weight (lbs)              | 399             |
| Max. capacity ( m² hr)    | 21000           |
