

Laser-Grader 2400 dual pole

The Laser-Grader 2400 has dual PVG16 valves fitted as standard to allow the machine to be controlled to a dual laser receiver for the most accurate control of the working depths and a perfectly level finish. Integrated ripping tines can be lowered to help break-up tough soils

Specifications

SKU	192.240.002
Operation	Tractor pulled
Working width (m)	2.4
Working width (inch)	94.5
Max. Working depth (mm)	Depending on the conditions and the required result
Max. Working depth (inch)	Depending on the conditions and the required result
Max. Working speed (km h)	Depending on the conditions and required results
Max. Working speed (mph)	Depending on the conditions and required results
Weight (kg)	1528
Weight (lbs)	3369
Number of tines	7 ripping tines
Min. Tractor HP required	50-150
Required connections	Double acting valve with free hydraulic oil return
Lubricant	EP 2
Dimensions (width mm)	2.48
Dimensions (height mm)	1.2
Dimensions (length mm)	4.7
Dimensions (width inch)	97.6
Dimensions (height inch)	47.1
Dimensions (length inch)	185
