Redexim

Keep it **neat and tidy**

Debris and leaf blowers

Clean golf courses and **tidy public spaces**

Grass clippings, leaves, aeration cores, post-festival plastics: Verti-Air® blowers clear them from golf courses, sports fields and public spaces.

From quiet operation in noise-sensitive areas to powerful airflow for large spaces, the Verti-Air® range offers the flexibility to match different environments and vehicles.

Quiet Where It Matters
The Verti-Air® 400 is quiet enough to start early near schools and residential areas.

Built for Different Vehicles
Multiple linkage and drive options make Verti-Air® blowers compatible with a wide range of tractors and vehicles.

From Compact to High Capacity
From compact and lightweight to high-capacity airflow, there is a Verti-Air® blower for different jobs and terrains.

Verti-Air® 400

180° spout

Quiet performance. **Fits many vehicles.**

The Verti-Air® 400 combines low-noise operation with flexible mounting and drive options, making it ideal for a wide range of tractors and even vehicles.

It is quiet enough for noise-sensitive environments. Multiple linkage options for front and rear mounting, together with PTO and hydraulic drive configurations, make it a versatile choice.

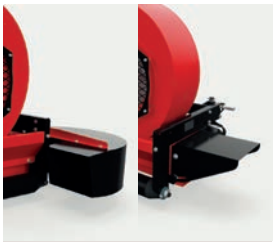

Quiet by Design
Quiet enough for noise-sensitive areas.

Flexible Mounting
Suitable for both front and rear mounting on different vehicles.

Multiple Drive Options
Available with PTO or hydraulic drive. Runs from 25 hp PTO power, so it fits smaller tractors and vehicles.

Built to Last
Anti-scalp roller and impact protection bar protect the turf and the machine.

Two spout types

Inlet protection

Big airflow **for compact tractors.**

The Verti-Air® 7 is a powerful yet lightweight blower designed for compact tractors. Running from 30 hp PTO power, it delivers strong airflow without the need for a large tractor.

Its hydraulically adjustable reverse spout lets the operator change airflow direction directly from the seat, while the large wheels and anti-scalp roller help protect the surface during operation.

Light and Low Power
Lightweight design, from 30 hp PTO power.

Control from the Seat
Adjust the reverse spout hydraulically without stopping work.

Protects the Surface
Large wheels and an anti-scalp roller support smooth operation on turf.

Protected Fan
The inlet guard stops surface material from being drawn in.

Verti-Air® 960

Adjustable reverse spout

Straight spout

Our powerhouse, **for large areas.**

The Verti-Air® 960 is built for fast, efficient clearing across large turf and public areas. With an air capacity of 385 m³/min, it delivers the power needed to move leaves and debris quickly.

Its hydraulically adjustable reverse spout lets the operator change airflow direction directly from the seat. Air can be directed to either side, helping cover large areas with fewer passes.

High-Capacity Airflow
385 m³/min for fast clearing across large areas.

Control from the Seat
Switch the airflow left or right without stopping work.

Protect the Surface
Adjustable gauge wheels and an anti-scalp roller keep the blower clear of the surface.

Specifications
